Occupational Health & Safety (NBB002.1)

Course Aim

The content of this course is designed to educate participants in dealing with hazards and risks encountered in the workplace. It also includes the basic principles of safety and CPR. It has been taken directly from the Electrotechnology National Training Package and supports the development of essential skills required for electrical safety.

Duration 20 hours

Course Content

This module discusses the Occupational Health & Safety issues in regards the following:

1. Legal Requirements
2. Requirements for personal safety
3. Workplace hazards
4. Working with electrically operated tools and equipment
5. Emergency first aid/resuscitation (CPR)

Pre-requisites

There are no pre-requisites required for this module.

Structure

This course is offered in class and via correspondence. It contains theory, practical and assessment components.

Students will need the following

- Pens/pencils
- Paper
- Comfortable clothing (for CPR component)

Note: Participants may be eligible for a rebate through the Construction Industry Training Board (CITB). To receive this rebate you must quote a current membership number on your enrolment form and meet CITB funding criteria.
