# Rescue & Resuscitation

## Course Aim

This course provides an opportunity for Electrical Workers to develop and revise their knowledge and skills in the techniques of Rescue & Resuscitation.

**Duration** 5 hours

## Course Content

This class is both theory and practically based to ensure persons required to carry out, or help to carry out electrical work are suitably trained in Rescue & Resuscitation (in accordance with recognised practice in the Electrical Industry).

Rescue and Resuscitation satisfies the requirements of Regulation 29 of the Electricity Act 1995 as well as meeting the requirements of the Office of Consumer and Business Affairs in the renewal application process for an Electrical Workers Registration.

In addition to the PEER Statement of Attainment, each participant will be assessed and issued with a certificate of competency in Cardio-Pulmonary Resuscitation.

In-house company training is also available. Training can be tailored to suit a workplace needs eg. use of a 'Rescue Kit'.

## Pre-requisites

There are no pre-requisites required for this module.

**Structure** This course will involve theory and practical for both Rescue and CPR components.

## Students will need the following

- Pen/pencil
- Comfortable clothing

**Note:** Participants may be eligible for a rebate through the Construction Industry Training Board (CITB). To receive this rebate you must quote a current membership number on your enrolment form and meet CITB funding criteria.

*South Australian  
Training Awards*

*"Small Training Provider of the Year"*
